

# Find Album Artwork With Google - Version 2.5

By Brett O'Connor

<http://www.negatendo.net/~brett/> - [bretto@blimpsgo90.com](mailto:bretto@blimpsgo90.com)

New this version:

- Updated image size settings to be in-line with Google Image's redesign.
- Fixed the problem with an ampersand character breaking the search string.

Find Album Artwork With Google is an AppleScript for iTunes 4 or higher that runs a Google image search on the selected track's album and artist name with the hope of finding the according album artwork.

To use it, simply select a track in iTunes and run the script. If you need more help, check out this HOWTO:

<http://www.negatendo.net/content/find-album-artwork-HOWTO.html>

Some of the code in this script was shamelessly borrowed from Apple's CDDB Search by Album script (especially the stuff that makes a string all query-string-y).
