

# Mark All Episodes As Played

## v1.0

### AppleScript for iTunes

Find more **free** AppleScripts and info on writing your own at Doug's AppleScripts for iTunes.

While the Podcast library is in List View, select any one (or more) episode(s) of a podcast **or** its subscription title and run this script to mark every episode of the podcast as Played (or Watched).

*iTunes 9.1 removed the "Mark as..." option from the contextual menu displayed on the subscription's title while in List View, although it is still available in Icon View.*

**This script is Donationware. If you use it and like it *please* consider making a donation to support my AppleScripting efforts. [Click here for more info.](#)**

#### Installation:

**To manually install:** Put AppleScripts in your iTunes Scripts folder. This is located in *[user name] > Library > iTunes*. If there is no folder named "Scripts" there, create one and put the script(s) in it. AppleScripts will then appear in iTunes' Script menu, and can be activated by selecting by name and clicking. Be sure to also save this Read Me document in a safe and convenient place.

#### How to use:

While the Podcast library is in List View, select one or more episodes of a podcast, or select the podcast's subscription header run the script to mark every episode of the selected podcast as Played or Watched.

Works quite efficiently when provided a Shortcut Key.
