

Reshuffle Smart Playlists v1.0

AppleScript for iTunes
written by Lukas Bergstrom

Find more **free** AppleScripts
and info on writing your own
at Doug's AppleScripts
<http://www.dougscripsts.com/itunes/>

This script will delete the tracks from **all** of your Smart Playlists so that they will be re-populated. In some cases, depending on a Smart Playlist's criteria, a different set of tracks will populate each Smart Playlist.

This script is Donationware. If you use it and like it *please* consider making a donation to support my AppleScripting efforts. [Click here for more info.](#)

How to use:

Put this script in your iTunes Scripts folder. This is located in *user name > Library > iTunes*. If there is no folder named "Scripts" there, create one and put the script in it. It will then appear in iTunes' Script menu, where you can activate it by clicking on its name.

Run the script. After a few moments, the tracks from each Smart Playlist will be deleted and each Smart Playlist will re-populate.

v1.0 feb 15 2006
- initial release

this doc last updated February 15 06

If you have any trouble with this script, please email me. *Although please note that I am not this script's author.*
