

Search Amazon Book Covers

v1.2

AppleScript for iTunes

Find more **free** AppleScripts and info on writing your own at Doug's AppleScripts for iTunes.

This script will use your choice of **Title** (Name), **Author** (Artist), **Album**, and/or **Category** (Genre) of a single selected book-type track as the basis for a search of Amazon Books via your default browser. Yer basic.

This script is Donationware. If you use it and like it *please* consider making a donation to support my AppleScripting efforts. [Click here for more info.](#)

Installation:

To manually install: Put AppleScripts in your iTunes "Scripts" folder. This is located in *[user name]* > *Library* > *iTunes*.

As of OS X 10.7 (Lion), the user Library directory is hidden by default. Option-click the Finder's "Go" menu and select "Library" to make it visible.

If there is no folder named "Scripts" there, create one and put the script(s) in it. AppleScripts will then appear in iTunes' Script menu, and can be activated by selecting by name and clicking. Be sure to also save this Read Me document in a safe and convenient place.

How to use:

Select a single book-type track in iTunes and run the script. Choose which tags you want to use as keywords:

Fruitful results will be displayed in your **default** browser.
