

# Set Selected Tracks Shuffle

v1.0

AppleScript for iTunes 5

Find more **free** AppleScripts  
and info on writing your own  
at Doug's AppleScripts  
<http://www.dougscripts.com/itunes/>

This script will enable or disable the selected tracks' "Skip when shuffling" option.

Requires iTunes 5.

**This script is Donationware. If you use it and like it *please* consider making a donation to support my AppleScripting efforts. Click here for more info.**

## How to use:

Put this script in your iTunes Scripts folder. This is located in *user name* > Library > iTunes. If there is no folder named "Scripts" there, create one and put the script in it. It will then appear in iTunes' Script menu, where you can activate it by clicking on its name.

Select some tracks and run the script. You will be asked if you wish to "Enable" or "Disable" each track's "Skip when shuffling" option. After a few moments the script will report success or failure.
