

Unfinished Podcast Episodes

v1.0

For iTunes 11+/OS X 10.6+
Find more free AppleScripts
and info on writing your own
at [Doug's AppleScripts for iTunes](#).

Copy all unfinished podcast episodes in the Podcast library to a new playlist.

This script is [Donationware](#). If you use it and like it please consider making a donation to support my AppleScripting efforts. [Click here](#) for more info.

Installation:

Put AppleScripts in your iTunes "Scripts" folder. This is located in your *[user name] / Library / iTunes /* folder.

*The user Library directory is hidden by default. To make it visible, hold down the Option key on your keyboard and select **Go > Library** from the Finder.*

If there is no folder named "Scripts" in the *[user name] / Library / iTunes /* folder then create one and put the script(s) in it. AppleScripts will then appear in iTunes' Script menu, and can be activated by selecting by name and clicking. Be sure to also save this Read Me document in a safe and convenient place.

How to use:

Launch the script. It will scan the Podcast library for podcast episodes that have a **bookmark** value greater than 0 and less than the episode's **duration** and copy these tracks to a playlist named "[Unfinished Podcast Episodes>". (The **bookmark** value will be set if the podcast episode itself is set to "Remember playback position", which is the default setting for podcast episodes.)

- Audio tracks which *may* be podcast episodes but which are not in the Podcast library will be ignored.
