

Artwork=1 BPM v1.0

AppleScript for iTunes

Find more **free** AppleScripts and info on writing your own at Doug's AppleScripts for iTunes.

This script will set the BPM of the selected tracks--or the tracks of the selected playlist--to "1" if the track contains artwork.

Thus, you can then create a Smart Playlist utilizing "BPM is 1" to include tracks with artwork.

This script is *not* for everybody, and certainly not for users who utilize the BPM tag for its intended purpose.

This script is Donationware. If you use it and like it *please* consider making a donation to support my AppleScripting efforts. [Click here for more info.](#)

Installation:

If you installed the files from the downloaded disk image by dragging them to the "Installer", then the AppleScript and this Read Me document have already been installed in your *[user name] > Library > iTunes > Scripts* folder. The script will appear in iTunes' Script menu, where you can activate it by clicking on its name.

To manually install, if necessary: Put AppleScripts in your iTunes Scripts folder. This is located in *[user name] > Library > iTunes*. If there is no folder named "Scripts" there, create one and put the script(s) in it. AppleScripts will then appear in iTunes' Script menu, and can be activated by selecting by name and clicking. Be sure to also save this Read Me document in a safe and convenient place.

How to use:

Select some tracks or a playlist and run the script. Any tracks with artwork will have their BPM (Beats Per Minute) tag set to "1".

Later, since there is no way to detect artwork otherwise, you can establish a Smart Playlist with criteria that uses "BPM is 1" to include tracks that contain artwork.
