

Flip Arrow Link Action v1.1

AppleScript for iTunes

Find more **free** AppleScripts
and info on writing your own
at Doug's AppleScripts for iTunes.

Inverts the action of clicking and option-clicking iTunes arrow links. The default setting is for a "click" to search the iTunes Music Store, an "option-click" to search your library.

This script is Donationware. If you use it and like it *please* consider making a donation to support my AppleScripting efforts. [Click here for more info.](#)

Installation:

To manually install: Put AppleScripts in your iTunes Scripts folder. This is located in *[user name]* > *Library* > *iTunes*. If there is no folder named "Scripts" there, create one and put the script(s) in it. AppleScripts will then appear in iTunes' Script menu, and can be activated by selecting by name and clicking. Be sure to also save this Read Me document in a safe and convenient place.

How to use:

Run the script and follow the prompts. The script will change a setting in the "com.apple.iTunes.plist" preference file.

A restart will be required for any change to take affect.
