

Track Titles to Word Caps

v4.3

For macOS 11+/Music v1.1+/Apple TV v1.1+
Find more free AppleScripts
and info on writing your own
at dougscripsts.com.

Capitalizes the first letter of every word in each selected track's Title, converts all other letters to lowercase.

For macOS 11 and later only.

This script is Donationware. If you use it and like it please consider making a donation to support my AppleScripting efforts. [Click here for more info.](#)

Installation:

For the Music app

To make an AppleScript available in your **Music** Script menu, install it in the Music "Scripts" folder. This is located at `[user name] / Library / Music / Scripts /`. **Music** will look for AppleScripts in this folder.

For the TV app

Likewise, the **Apple TV** application will look for AppleScript files in `[user name] / Library / Apple TV / Scripts /`. (That's right, "Apple TV".) Indeed, for this script to run at all with the TV app it *must* be installed in this location.

*The user Library directory may be hidden by default. To make it visible, hold down the Option key on your keyboard and select **Go > Library** from the Finder.*

If the `[user name] / Library /` folder does not contain the application-appropriate named folder or "Scripts" folder, then create them and put the script(s) in the "Scripts" folder. AppleScripts will then appear in the corresponding app's Script menu, and can be

activated by selecting by name and clicking.

Be sure to also save this Read Me document in a safe and convenient place.

See the online Download FAQ for more info and video on downloading and installing AppleScripts.

How to use:

Select some tracks whose titles you wish to modify and run the script.
