Reset Tracks Start-Stop

v2.2

For iTunes 11+/OS X 10.12+
Find more free AppleScripts
and info on writing your own
at Doug's AppleScripts for iTunes.

This script will reset the Start and (optionally) the Stop Time of the selected tracks—or all the tracks of the selected playlist—to "0:00" and (optionally) their entire duration, respectively.

For macOS 10.12 and later only.

This script is Donationware. If you use it and like it please consider making a donation to support my AppleScripting efforts. Click here for more info.

Installation:

Put AppleScripts in your iTunes "Scripts" folder. This is located in your *[user name] / Library / iTunes /* folder.
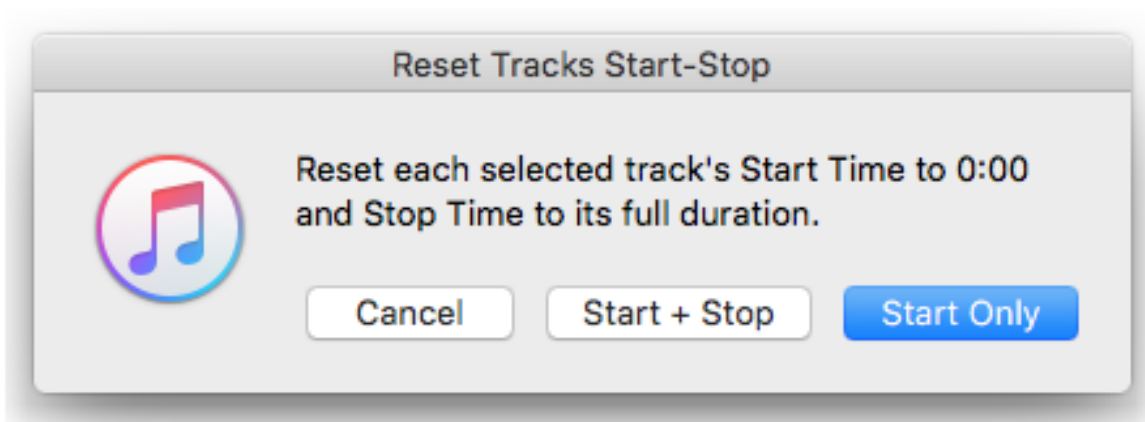

> *The user Library directory is hidden by default. To make it visible, hold down the Option key on your keyboard and select **Go > Library** from the Finder.*

If there is no folder named "Scripts" in the *[user name] / Library / iTunes /* folder then create one (likewise if there is no "iTunes" folder) and put the script in it. It will then appear in iTunes' Script menu, and can be activated by selecting by name and clicking. Be sure to also save this Read Me document in a safe and convenient place.

See the online Download FAQ **for more info and video on downloading and installing AppleScripts.**

How to use:

Select some tracks—or just a playlist—and launch the script. Choose to reset the Start Time or **both** the Start Time and Stop Time:

In a few moments, the changes will be made.
