

# Search IMDB v1.0

## AppleScript for iTunes

Find more **free** AppleScripts  
and info on writing your own  
at Doug's AppleScripts for iTunes.

This script uses data from the single selected track as the basis for a search of the IMDB (Internet Movie Database) website.

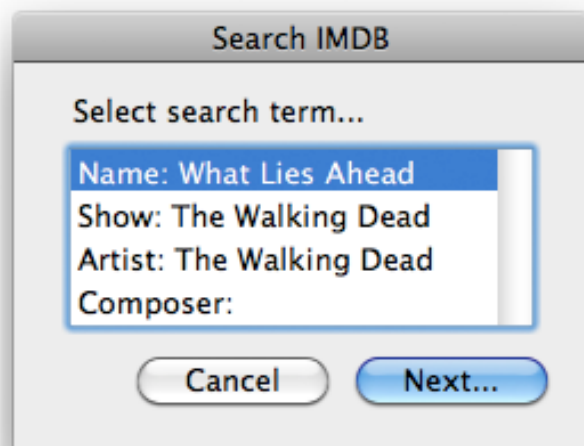

**This script is Donationware. If you use it and like it *please* consider making a donation to support my AppleScripting efforts. [Click here for more info.](#)**

### Installation:

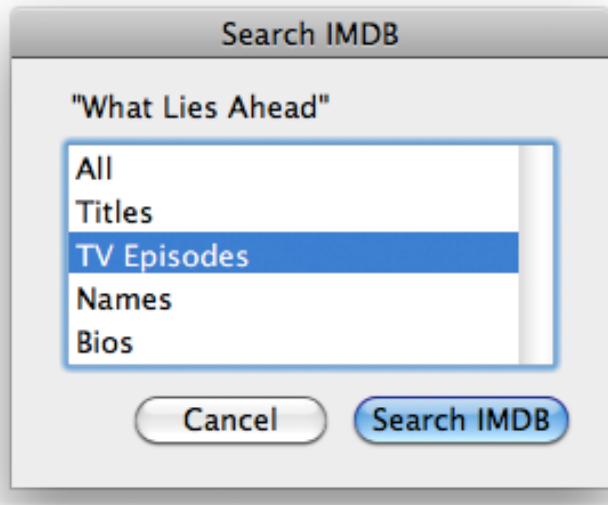

**To manually install:** Put AppleScripts in your iTunes Scripts folder. This is located in *[user name] > Library > iTunes*. If there is no folder named "Scripts" there, create one and put the script(s) in it. AppleScripts will then appear in iTunes' Script menu, and can be activated by selecting by name and clicking. Be sure to also save this Read Me document in a safe and convenient place.

### How to use:

Select a single track and launch the script.

After selecting the search term from the list, click the "Next..." button...

...and select the area to search at IMDB. Click on "Search IMDB" and results will appear in your default browser.
