

Selected Tracks As Mail Attachment

v1.0

AppleScript for iTunes

Find more **free** AppleScripts
and info on writing your own
at Doug's AppleScripts
<http://www.dougscripsts.com/itunes/>

This script will create a new Mail.app message containing the files of the selected tracks as attachments.

DISCLAIMER: this script was not written with any intention to subvert copyright laws. Do not share copyrighted material.

This script is Donationware. If you use it and like it *please* consider making a donation to support my AppleScripting efforts. [Click here for more info.](#)

How to use:

Put this script in your iTunes Scripts folder. This is located in *user name > Library > iTunes*. If there is no folder named "Scripts" there, create one and put the script in it. It will then appear in iTunes' Script menu, where you can activate it by clicking on its name.

Select some tracks in iTunes whose files you wish to attach to a Mail.app message and run the script. A new Mail.app message will be created which will contain the files of the selected tracks as well as a parenthetical list of their filenames.

v1.0 jul 29 2006
- initial release
